

Spatial connection to the upslope unit / Talus-connected

Comment:

Multi-unit rock glacier system. All units are talus-connected. The sequence headwall – talus slope (scree) – rock glacier (purple) is noticeable.

Miller Lake, United States of America 46.0634°N, 113.1302°W
2600-2800 m.a.s.l.
