

Spatial connection to the upslope unit / Glacier-connected

Comment:

Continuity glacier – debris-covered glacier (DCG) - rock glacier. The delimitation between the DCG and the rock glacier section is not feasible without further direct or geophysical prospection.

Kulylyutan, Kyrgystan
42.0218°N, 78.9474°E
3300-3600 m.a.s.l
